The MMXXIV.01 fee schedule is effective for all new students who submitted their applications before 2024-07-15 with a starting date on or after 2024-09-30, and is effective for all new students submitting their applications on or after 2024-07-15 with a starting date on or after 2024-07-15 until a new fee schedule is published. The previous fee schedule, MMXXIII.01, remains effective for all new students who submitted their applications before 2024-07-15 with a starting date before 2024-09-30. The program fees in this fee schedule are also effective for all continuing students who started on a previous fee schedule and who took a break of more than 1 Quarter. Previous fee schedules are available with the Admissions Department and the Office of the Bursar. The various fees in this fee schedule are also effective for all continuing students regardless of their application date, starting date or of any breaks they took. Unlike the program fees, the additional fees and the various fees are not based on someone's application date or starting date and may change without prior notice. Our competitive fees are based on the organizational cost of the various education services in the various locations. The additional fees are charged separately from the program fees in order to separate charges in different currencies and for services provided by our main campus in Zurich, Switzerland. Our fees are not all-inclusive in order to allow individual students to customize their education, of which the respective costs are carried only by the individual students they apply to rather than by all students, which would result in higher all-inclusive fees overall. The total applicable fees depend on the level of customization of individual students. Program fees are calculated pro-rata per campus where credits and courses are attempted. Program fees are equal for all students, regardless of their nationality or place of residence, and include all relevant local VAT or sales taxes, except at our campuses in Antwerp and Brussels whereby 21% VAT is excluded from the program fees for all education services rendered locally to registered legal entities. Program fees consist of matriculation services offered by the school's main campus in Zurich, Switzerland, and tuition services offered by the local campuses. Company invoices are available upon request. Scholarships do not apply to the additional fees or to the various fees. Program fees are due payable on a quarterly basis always before the start of each new quarter and are based on fixed quarterly amounts. The balance is based on the total credits or courses attempted. Refer to your personal payment schedule for details. Updated payment schedules are prepared either by the Admissions Department or the Office of the Bursar and replace all previous payment schedules. All other fees are due payable immediately. All payments must be made by bank transfer directly to the school and upon invitation from our Admissions Department, Accounting Department, Office of the Bursar or Office of the Registrar only. Mention your name on the bank transfer when making payments. The additional fees and the various fees can be paid also by credit card using PayPal. See our website or contact us for PayPal payment details. Cash payments and checks are not accepted. Paid fees are non-refundable. Refunds of overpayments will be processed within 30 days of program completion and of receipt of full bank account details. Refunds of student visa deposits will be processed within 30 days of receipt of student visa rejection documentation and full bank account details. Refunds are only made directly to the student regardless of the person who made the original payment. This schedule is subject to a regular review and/or to inflation adjustments. See the Terms and Conditions and the Student Guide for further details.
